

 **IKOM** Start-Up

**We connect people.  
Personally.**

29<sup>th</sup> June 2022

Faculty of Mathematics/Informatics • Technical University of Munich

# Dear Sir or Madam,

on June 29<sup>th</sup>, 2022, the 8<sup>th</sup> IKOM Start-Up will take place in the Faculty of Mathematics and Informatics at the Technical University of Munich. Take advantage of our dedicated forum for young companies to promote Your start-up, find potential new employees, and effectively present Your business idea.

As a group of volunteer students, our mission is to foster relationships between students and companies. To achieve this goal, we organize other events such as excursions, workshops, and presentations free of charge for students of all disciplinary backgrounds in addition to our career forums. In parallel to IKOM Start-Up, IKOM, our largest career forum, will be held in the TUM School of Engineering and Design right next door. Our forum offers You the opportunity to address a wide range of potential applicants from all disciplines. Within the framework of IKOM Start-Up, it is our goal to promote the exchange between students and young companies.

Is Your start-up looking for...

- young professionals and graduates?
- interested interns or working students?
- students, who would like to write their thesis or seminar?

The IKOM Start-Up is an excellent platform for Your aspiring company to get in touch with interested, highly qualified students and graduates of the Technical University of Munich and other universities in Munich. Furthermore, we offer You the opportunity to conduct interviews with suitable candidates at our forum. Students can apply for the interviews in advance via our portal and You will be able to select the candidates. Additionally, You can participate in our 90 second Start-Up Pitch allowing You to present Your business concept and introduce it to the students and forum guests.

If You have any further questions, do not hesitate to contact us.

We look forward to meeting You!  
With kind regards,

*Andrea Espinosa*
